

## Phlebotomy Licensure Disclosure

Upon successful completion of [AHMA 220 Phlebotomy](#) and [AHMA 221 Phlebotomy Clinical Training](#), students establish the ability to sit for the [American Society for Clinical Pathology \(ASCP\)](#) or [American Medical Technologists \(AMT\)](#) national certifying exams. The state of Montana does not regulate phlebotomy and does not require credentialing or formal education.

This disclosure indicates, as of May 18, 2022, the states that FVCC has determined through a reasonable, good faith effort that the phlebotomy program meets or does not meet the educational requirements for licensure or certification, or for which states FVCC has yet to make a determination.

If you are planning to pursue professional licensure or certification in a state other than Montana, we recommend that you contact the appropriate licensing board in that state to seek information and guidance regarding licensure or certification requirements before beginning an academic program.

<b>State and Territory</b>	<b>Meets Educational Requirements for Licensure</b>
Alabama	Undetermined
